

2 DAY TOUR - SPLIT WITH NATIONAL PARK KRKA (16th and 17th September 2018)

Itinerary

DAY 1 – 16th September (Sunday)

Departure from Dubrovnik towards Split (in the morning precise time to be announced)

Arrival to hotel in Split and check in

After check in, proceed to Split city walking tour.

Split city walking tour

Description: This tour takes you on a stroll through the old city of Split. You'll visit the grounds of the imperial palace, which today is a warren of cobblestone streets, gothic churches, history-filled museums, art galleries, and restaurants. Enter the palace cellar for a glimpse of its inner workings. Then continue your walk passing by the Cathedral of St. Dujice and the Temple of Jupiter. After your tour, enjoy some free time to shop the city's market

Free time and Lunch

Afternoon tour of Trogir

Description: Experience old-world splendor and a UNESCO World Heritage Site in Croatia's most beautiful town. Drive 40-45 minutes along the Split Riviera to Trogir, which sits on an island between the mainland and larger Ciovo island. Walk across the bridge to this virtual open-air museum of Medieval splendor. Stroll its narrow, cobblestone passageways and see palaces, stone houses, churches, monasteries, towers and parks, as well as Town Loggia and Cipiko Palace. Then see Cathedral of St. Lawrence, boasting sacral architecture. Enjoy some free time to explore city on your own before taking bus back to Split.

Dinner on own

Overnight Split

DAY 2 – 17th September (Monday)

Morning departure to National Park Krka with lunch

Description: Leaving town of Split ride by coach through the karst Sibenik hinterland to the famous "Krka" river waterfalls. Located in the lovely Krka National Park, the falls cascade over 17 natural barriers. Krka is one of the 7 National Parks in Croatia and it covers an area of 14222 Ha with its specific characteristics of natural, human and cultural values, particularly geological, geomorphologic, hydrological, biological and landscape elements. The Krka river is a distinctive phenomenon also due its specific biocenosis and formation of gypsum barriers. The whole area is rich with endemic species-vegetation as well as birds and fish. Due to very strong laws on natural preservation this extraordinary area has been preserved in its original form.

This tour will take you to the most attractive part of the Park – the Skradinski Buk waterfalls. The highest fall is 46 meters high which makes it the highest gypsum barrier in Europe. Above the falls there is a large plateau that offers spectacular views. There will be possibility to visit small ethnological exhibition and the old mill which is still in function so the people can see how they used them for grinding. Around the falls there is a path so those who wish to explore further can do so as well.
